Level 2 Certificate in Construction Operations

Location	Stockport College
Course Type	College 16-18
Department	Building Services
Start Date	Tuesday 1st September 2026
Course Code	SFP-CO2C-1100

Course Overview

This course is designed to better your understanding of the principles of building construction, how to install protection barrier to enable the laying of paths, using a variety of methods, install drainage, construct foundations and slabs in concrete. You will develop good health and safety practices, learn how to interpret technical drawings and understand technical jargon- all whilst learning to work with other trades.

Course Requirements

4 GCSE's at Grade 2 or above (including English and Mathematics)

What You Will Learn

You will learn, develop and practise a variety of skills to enable you to build, repair and maintain groundworks

Assessment

You will be assessed on your practical ability to national standards and your theoretical knowledge will be tested by both paper and online exams.

Progression

Successful completion of this qualification will provide you with the knowledge and skills required for either progression into employment or onto an apprenticeship in this area

Career Options

Obviously, you could be a groundworker, from which you could then specialise in a particular area of mason paviour, driveways or conservatory bases. Also, down the line, you could even become a construction site manager.

Mandatory Units

Health, safety and Welfare in Construction

Principles of Construction

Construction Site Protection Barriers

Lay Domestic Drainage

Construct Foundations, Slabs & Paths in Concrete
