Course Overview

This qualification is 19+. The qualification is aimed at students wishing to develop an understanding of basic photographic processes and will also allow students to understand how to manipulate images. The qualification aims to support students to progress either into employment or onto further qualifications.

Course Requirements

Applicants must be 19+

What You Will Learn

Use a Camera to Capture Creative Images

You will develop your skills in using a camera to capture creative images. You will learn about different camera settings, techniques for composing shots, and how to use lighting effectively. The aim is to help you understand the basics of photography and how to apply these techniques to create visually appealing images.

Digital Image Manipulation

You will learn how to manipulate digital images using various software tools. This includes understanding how to edit and enhance images, apply filters and effects, and combine multiple images to create new compositions. The goal is to equip you with the skills needed to produce high-quality digital images that meet specific creative or professional requirements

Assessment

The assessment for this course will be conducted through a portfolio. This method involves the collection of various pieces of work that demonstrate the learner's skills, knowledge, and understanding of the course material.

Progression

Level 2 Award in Photography, Employment or Higher Education

Career Options

Digital marketing. Photographer. Content Creator

Mandatory Units

Use a Camera to Capture Creative Images
