Course Overview

This short hands-on course provides an excellent foundation in the main Microsoft applications used in the workplace today - Word, Excel and PowerPoint. The course is designed for people who already have some IT skills.

Course Requirements

You do need some IT skills to do this course, such as the ability to use a word processor, and to access emails and the internet. Before the course starts you will be invited into the college to have a chat about your current IT skills, so we can make sure you are enrolling onto the right course for you.

What You Will Learn

Microsoft Word - you will explore the main features of Word, creating a range of documents using the main text formatting tools, as well as tables, page margins and inserting images.

Excel Spreadsheets - you will create and edit basic spreadsheets, using different layouts and formatting skills. You will also learn more about creating formulas to perform simple calculations.

Introduction to PowerPoint - you will be able to create basic power point presentations using different design features, slide transitions and layouts.

This course is ideal for those who want to progress onto the Entry level 3 Essential Digital Skills Qualification.

Assessment

This is a non-accredited course so there is no exam. Students will be assessed informally during the course and will be given feedback on how to improve.

Progression

Students may advance to a higher-level digital skills course within the college, such as Entry Level 3 Essential Digital Skills.
