Course Overview

This course is designed to equip learners with the knowledge and confidence to support the health, safety, and wellbeing of babies and young children in early years settings. Whether you are new to the sector or looking to refresh your understanding, this course covers essential topics that are vital for anyone working with children.

Course Requirements

There are no formal entry requirements for this course. It is open to anyone with an interest in supporting the health and wellbeing of babies and young children in early years settings.

What You Will Learn

You will learn how to create and maintain a safe and healthy environment for babies and children, including hygiene, nutrition, and accident prevention. Also, to recognise and respond to common childhood illnesses, understanding symptoms, treatment, and when to seek medical help. And how to respond effectively to health emergencies.

Assessment

You will complete online assessments and receive ongoing support from an assessor, all delivered through a flexible online learning platform.

Progression

After completing this course, you can progress to further Level 2 online courses offered at TSCG, expanding your knowledge and skills in early years care and education.

Career Options

This course supports progression into roles within Early Years and Education settings, such as nursery assistant, classroom support, or other childcare and educational support roles. It provides a strong foundation for those looking to begin or develop a career working with babies and young children.

Mandatory Units

Understand how to provide a safe and healthy environment for babies and Children

Understand common childhood illness

Understand health emergencies and specific health conditions in an Early Years setting.
